

I want to write to you in protest of the possibility that AIR 1 would be taken off the air in my area because of some new broadcast service known as LPFM. The effect on my local community -- I understand that thousands of people listen to this station. AIR 1 has a very loyal set of listeners and it would be rather devastating for this station to be off the air! The service provided by AIR 1 is a HUGE benefit to public interest because it reaches out to people who are hurting.

Please don't let this station be taken off the air. Thank you.
